Planning Division Staff: When an application and plat is submitted, the city’s planning staff will verify that all information is included on the application, filing fees are submitted, and that the correct number of plats are provided for review. The staff will review the application to ensure compliance with the city’s land development regulations.

Zoning Division: The zoning administrator and/or assistant zoning administrator review the plat to determine compliance with the zoning ordinance.

Building Division: The building official reviews the plat to ensure all floodplain information has been correctly placed on the plat.

Fire Marshal: Reviews proposed projects for hydrant locations, available water flow and adequate access to any structures for firefighting equipment.

Public Works/City Engineer: Reviews proposed plat for locations of roadway curb cuts on commercial property, utility easements and widths, and whether public water, sewer disposal systems and storm drainage systems meet the requirements of the city’s code.

Parks & Recreation/Parks & Grounds Superintendent: Reviews trees and parks within the public realm, most often found within street rights-of-way.
