

Information Services

November 2018

GIS

- We provided data for the upcoming beach renourishment project.
- She finished the upgraded GIS project and moved it into the active test environment.
- Sarah worked on Cityworks Server map setup and configuration of the services needed.
- She coordinated with Horry County on SQL upgrades and training.

Technology

- During November, we concluded work for the Christmas light show. We sped up some of the animation sequences. Additionally, we assisted with POS setup for Santa's village
- We received a Hewlett Packard Generation 10 server. We began the process of prepping the server for addition into the server cluster. We decided to bring our VMWare up to the most recent stable release so this will be done as part of the install.
- Our door badge system is being replaced. We built a virtual server to support the new system.
- Finance is preparing to replace our old time keeping system "Kronos" with a system that integrates directly with the Incode financial system. We are testing the new clocks that the system uses and have worked with the vendor, ExecuTime on server and software installation.
- We received 16 new cameras from Hong Kong and will be installing them around City Hall as our time permits.
- Our DBA, Sarah Bishop, submitted her resignation effective the week of Thanksgiving. She wants to start a new career in elementary education.

Websites

- Rob has been preparing for a major WordPress update that will affect many of our sites.
- According to "Stat Counter" NMB.US had 23,191 unique visitors in November versus 23,430 in October. PARKS.NMB.US had 35,231 unique visitors in November compared to 15,573 in October. Aquatics and Fitness had 5,177 unique visitors in November compared to 5,245 in October. Public Safety had 4,152 unique visitors in November compared to 3,935 in October. The Sports Park site had 22,788 unique visitors in November compared to 29,339 unique visitors in October.
