Early Morning July 4th Mosquito Spraying Scheduled for Mclean Park

North Myrtle Beach, SC – July 3, 2018 – On July 4, the City will spray for mosquitoes at 6:00 a.m. in McLean Park. The spraying mist disperses quickly.

The spraying is necessary due to the very high mosquito count in park. The count is currently more than triple the desired threshold.

City personnel have been working in the park and with surrounding property owners to help identify and remove standing water sources that may have exacerbated the problem this year.
