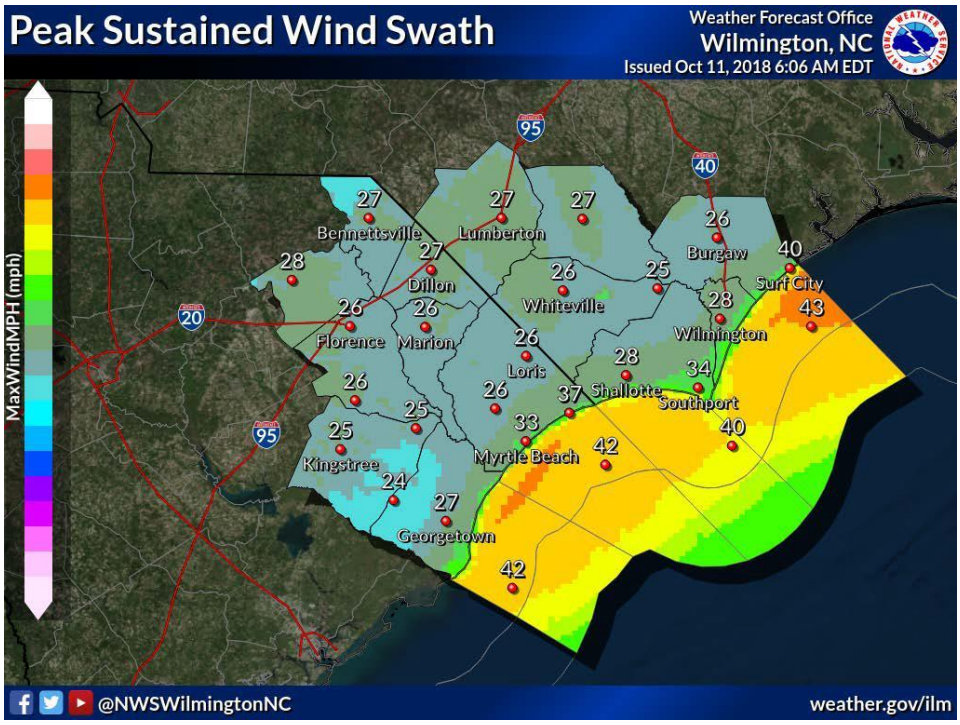
TROPICAL STORM MICHAEL – OCTOBER 11 UPDATE

North Myrtle Beach, SC – October 11, 2018 – Tropical Storm Michael will move at a fast pace through the Carolinas today through this evening.

Tropical storm force winds may impact our area during the day today.

An additional 1/2 to 3 inches of rainfall with locally higher amounts are forecast. A Flash Flood Watch remains in effect for our area.



Coastal flooding is possible, especially with each high tide through today. A Coastal Flood Advisory remains in effect for Georgetown, Horry, New Hanover, and Pender counties. A Coastal Flood Warning is now in effect for Brunswick County.

Tornadoes are possible for all of northeast South Carolina and southeast North Carolina.

Trees weakened by Hurricane Florence and standing on ground still saturated with water from the storm are at risk in high wind gusts.

Unless an unexpected change occurs in the forecast for this storm, this will be our final update on the progress of Tropical Storm Michael.
