

REMINDER

A property owner who decides to act on one of the two assessment prepayment options for the Cherry Grove Dredging Project must make sure that the City has your check *in hand* not later than the close of business (5pm) on July 22, 2016. Any prepayment checks received after that date will be returned.

The July 22 deadline, which was also emphasized in the original and updated notices about prepayments, must be adhered to in order for the bond preparation process to continue unabated.
