## **North Myrtle Beach Fire Department will paint fire hydrants over the next few weeks**

*North Myrtle Beach, SC – March 7, 2018* – If you notice North Myrtle Beach Fire Department vehicles parked along the roadside over the next few weeks, personnel are repainting fire hydrants throughout the city. They keep their vehicles handy so that they can immediately respond to a fire or other emergency when necessary.

Some fire hydrants in the city are part of the "Adopt a Fire Hydrant" program and have special (approved) color schemes and will not be painted this time around. Unless a fire hydrant is included on the current list of "adopted" fire hydrants, it can only be painted by the Fire Department.
