Agenda Section: Unfinished Business: Ordinance. Second Reading	Date: June 19, 2025
Subject: Ordinance to provide for the Adoption of the Budget for FY 2026	Division: Finance

Background:

During December of 2024, staff began to develop budget alternatives and preliminary revenue and expenditure estimates for the budget period beginning July 1, 2025, and ending June 30, 2026. This information was assembled and presented to City Council for their review during the annual Budget Retreat held on April 15–16, 2025, of this year.

During the Budget Retreat, City Council reviewed the City Manager’s Budget and came to a consensus concerning the FY 2026 Budget. The budget document was then prepared to reflect the priorities, goals, and policies presented in the budget retreat document.

This budget is City Council’s financial plan for the upcoming fiscal year. It outlines the parameters from which the administration will provide the projects and services prioritized by City Council. As such, it is one of City Council’s most important policy documents and is required to be adopted by ordinance.

This ordinance provides for adjustments to Water and Sewer User Fees based on increases from Grand Strand Water and Sewer as well as a 5% increase in impact fees per city ordinance.

BUDGET INTRODUCTION

City of North Myrtle Beach, South Carolina

Fiscal Year 2025-2026 Budget

F O R E W O R D

THE CITY

The City of North Myrtle Beach is located on the Atlantic Ocean and encompasses the northeastern section of the South Carolina coastal beach area known as the Grand Strand. North Myrtle Beach operates in and is governed by the laws of the State of South Carolina and also by its own charter which was first adopted by the electorate on May 7, 1968. The charter provides for a Council-Manager form of government. Legislative authority is vested in the Mayor and six Councilmembers elected at-large; provided, one councilmember shall be a resident of each of the following wards: Crescent Beach, Cherry Grove, Ocean Drive, Windy Hill, and two at-large. The terms of office are for four years each. The present term of councilmembers from Cherry Grove and Crescent Beach wards will expire during November 2027, along with one at-large member. The present term of the Mayor and the councilmembers from Ocean Drive, Windy Hill, and the other at-large councilmember will expire during November 2025. The Mayor and Council enact ordinances and resolutions relating to City services, levy of taxes, appropriation and borrowing, licensing and regulating of businesses and trades, and other municipal purposes.

ACCOUNTING SYSTEM

The City's accounting system is organized and operated on a fund basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. The types of funds to be used are determined by generally accepted accounting principles, and the number of individual funds established is determined by sound financial administration. The general principle for funds is to keep the overall number of funds to a minimum.

The City's records are maintained on a modified accrual basis for all governmental and fiduciary fund types. Accordingly, revenues are recognized when susceptible to accrual, i.e., both measurable and available. Expenditures, other than interest on long-term debt, are recorded as liabilities when incurred. The accrual basis of accounting is utilized by all proprietary funds.

BUDGETARY SYSTEM

The fiscal period of the City of North Myrtle Beach begins July 1 and ends June 30. Detailed provisions for the City's budget are set forth in South Carolina Code and City Code.

The budget process begins in January - six months before the budget will take effect. The FY 2026 budget calendar, which follows, outlines the budget process for the City of North Myrtle Beach.

Preliminary discussions between the City Manager, Finance Director, Finance Staff and department heads took place during November to determine departmental needs and direction. The results of these discussions are assembled along with financial forecasts and presented to City Council at the annual Budget Retreat. During the Budget Retreat, City Council establishes goals, priorities, policies, and budget parameters for the upcoming fiscal year. Based on guidance given by Council at the retreat, a proposed budget is developed and submitted for consideration by City Council and the public prior to the beginning of the new fiscal year. The proposed budget receives a public hearing before adoption, and requires two reading six days apart in order to be adopted as the annual budget.

After the budget takes effect, the City Manager is empowered to transfer funds from line item to line item, division to division, department to department and fund to fund. He may not exceed the appropriated limit for expenditures during the fiscal year without first seeking a budget adjustment ordinance from City Council.

The City maintains budgetary control on a GAAP basis at the object level (Salary, Regular; Salary, Part-Time; Overtime; Social Security; etc.) within each division. Detail control is accomplished by maintaining appropriations, expenditures and expended balances by line item within each operating division, department, and fund. Purchase requisitions or payments which would exceed their available object level appropriation are not processed without the approval of the Finance Director or Asst. Finance Director, who discusses the overrun with the appropriate staff member. As an additional control over expenditures, the City Manager approves all purchase requisitions in excess of \$10,000.

OUR MISSION AS CITY EMPLOYEES

is to interact with our customers to provide cost effective, high quality public services which will support and enhance a safe, attractive community for families and visitors to enjoy and for business to prosper both today and tomorrow under the policies established and resources provided by City Council.

Honorable Mayor and Members of City Council:

It is my privilege to present the proposed budget for the City of North Myrtle Beach for the fiscal year ending June 30, 2026.

As the City's most important annual planning document, this budget outlines the services, programs, and service levels we provide as a full-service municipality. It also embodies the vision and priorities established by Council, particularly those discussed during the annual Budget Retreat.

The millage rate for FY 2026 will remain at 45 mils. The overall proposed budget totals \$211,872,744, an increase from \$207,832,115 in FY 2025.

Included in this year's budget are adjustments to the Water and Sewer Fees which are detailed in the Revenue Manual. Additional information regarding these adjustments can be found in the Budget Policies section of the document.

The budget supports an increase in full-time positions from 505 to 554. This includes fourteen new Fire positions, twelve new Parks & Grounds positions, and additional roles across several departments to meet growing service demands.

This year's budget provides for a balanced budget in the General Fund, all enterprise funds are cash flow positive, and other governmental funds maintain healthy fund balances.

I want to extend my sincere appreciation to the Mayor and City Council for your guidance and support throughout this process as well as our department heads and staff for their diligent work in developing this comprehensive and responsible financial plan for the upcoming year. A special thanks to Jamie Baker, Acting Finance Director, for preparing this document.

Respectively Submitted,

City of North Myrtle Beach

**CAPITAL/OTHER INFRASTRUCTURE SUMMARY
ALL FUNDS**

The City will continue to adhere to its pay-as-you-go financing methodology established in 1988 for operating capital. Capital expenditures have been chosen based on the availability of funding as well as bond capacity. This policy has enabled the City to provide needed improvements without affecting future budgets. The City's equipment is good condition and the majority of the city's infrastructure is also in good to excellent condition. The financing of needed equipment on a pay-as-you-go basis, is only possible when a community experiences steady growth like that of North Myrtle Beach.

A summary of capital/other infrastructure by fund and department is provided in the following table for the 2026 Fiscal Year. Capital expenditures make up a significant portion of the total budgetary expenditures of \$211,342,444 including capital purchases in the enterprise funds. The city has functioned primarily under the pay-as-you-go financing methodology over the last 36 years .

GENERAL FUND CAPITAL

Capital purchases within the General Fund for FY 2026 have increased from the previous fiscal year. Budgeted capital purchases still make up only a small percentage of the overall expenditures of the General Fund because many of the ongoing capital purchases of the government are funded in other capital project funds.

Timely replacement of motorized equipment is necessary in order to ensure the most efficient delivery of services. This policy is evident in the replacement of vehicles with high mileage or use. Vehicles, such as fire trucks, construction equipment and pickup trucks are replaced based upon a set replacement schedule that has been followed in this budget cycle. This replacement policy ensures that equipment being utilized by

employees for the public is in good working order, which protects the interests of those who work, live, and vacation in North Myrtle Beach.

The following table lists the various General Fund capital purchases for FY 2026:

Capital expenditure projections for future years are within the annual spending parameters the city has allocated to capital purchases over the previous five years. The General Fund should have no problem continuing its pay-as-you-go financing for the various capital expenditures projected through FY 2030.

WATER AND SEWER FUND

Several major infrastructure improvements are budgeted for the Water and Sewer Fund for FY 2026. Due to the estimated cost of several of these infrastructure projects scheduled for this fiscal year, a possible transfer from operations and a revenue bond may be necessary in order to provide the cash flow to take on all these projects.

The Water and Sewer Fund is authorized to expend \$35,710,000 on capital projects/equipment for FY 2026. These projects are split between impact fees and operating revenues. The largest capital expenditures will be for various major water projects such as transmission improvements, a water tower and a portion of the Myrtle Beach transmission line. CAPITAL IMPROVEMENT FUND

The Capital Improvement Fund accounts for financial resources used for capital asset replacement, acquisition, and construction for general governmental activities. The projects for FY 2026 are outlined in the chart below. Not all expenditures in the Capital Improvement Fund are classified as a capital expenditure such as the cost of lobbyist to obtain additional funds for large projects and repairs. Total capital expenditures for the budgeted fiscal year are \$24,904,000 of which \$12,000,000 is for Fire Station #7.

Other major purchases for this fund will include fire vehicles, land improvements, equipment, and the continued expansion of the citywide camera system.

CHERRY GROVE DREDGING FUND

This fund records all activity of the Cherry Grove Dredging Project. There are no capital expenditures for this year, as the final dredge of the current Cherry Grove Dredge District has been completed. Future dredges would require the City to reestablish a new district based on what properties would benefit from additional dredge projects.

SOLID WASTE FUND

The Solid Waste Fund became an Enterprise Fund during FY 2001. Solid Waste previously was part of the General Fund. This budget provides for \$4,023,500 of equipment/improvements to be bought in FY 2026 of which the largest portion is for station building/yard improvements of \$2,750,000.

STORM WATER DRAINAGE FUND

The Storm Water Drainage Fund was established by adoption of the Storm Water Management Ordinance during FY 2002. This Fund records all storm water fees collected from utility bills, as well as related capital expenditures for various drainage projects including ocean outfalls.

Capital outlay is projected to be \$4,075,000 for FY 2026 of which \$1,500,000 is for 17th Avenue South Outfall. Other significant drainage projects will include drainage improvements and other miscellaneous drainage projects.

AQUATIC & FITNESS CENTER FUND

Capital equipment for the Aquatics & Fitness Center will be very small over the next five years at \$75,000 annually.

BEACH SERVICES FUND

Capital expenditures for Beach Services and Lifeguards will be \$375,000 for FY 2026. The major part of this capital is for umbrella and chair replacements. The following four fiscal years will see the expenditure of \$45,000 for additional capital each year. Due to the significant wear and tear on equipment used on the beach, replacement time is accelerated.

NORTH MYRTLE BEACH ENTERPRISE FUND

The NMB Enterprise Fund will begin its seventh year of operations as an enterprise fund. The main function of this fund is to provide for the commercial and tourist related activities of the Sports & Tourism Park. FY 2026 will budget capital expenditures of \$300,000 for improvements to the light show. Additional capital outlay has been estimated between \$50,000 for the following four years.

Additional improvements have also been budgeted for Central Park at \$6,400,000 for parking and pickle ball courts. Funding for these projects will come from a General Obligation Bond as well as transfers from other Governmental Funds.

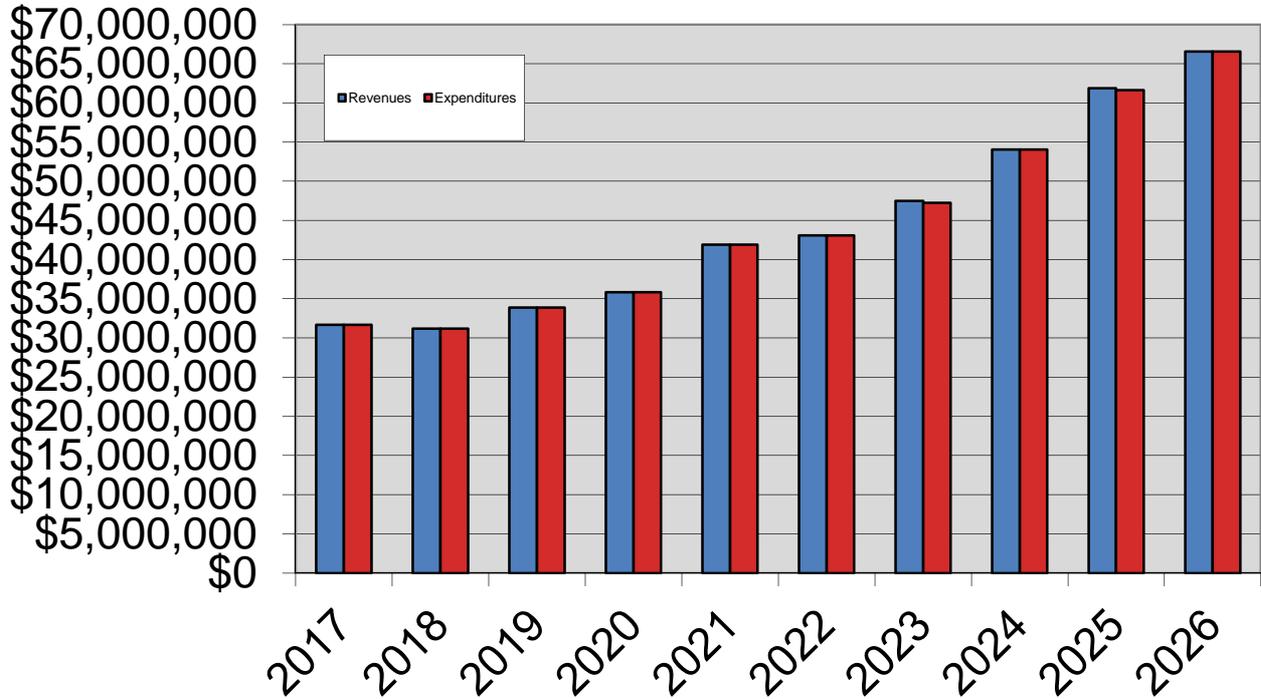

BEACH RENOURISHMENT

The ongoing replacement of ocean front walkovers will continue in this fund. An expanded amount of \$350,000 has been budgeted for FY 2026.

GENERAL FUND SUMMARY

GENERAL FUND

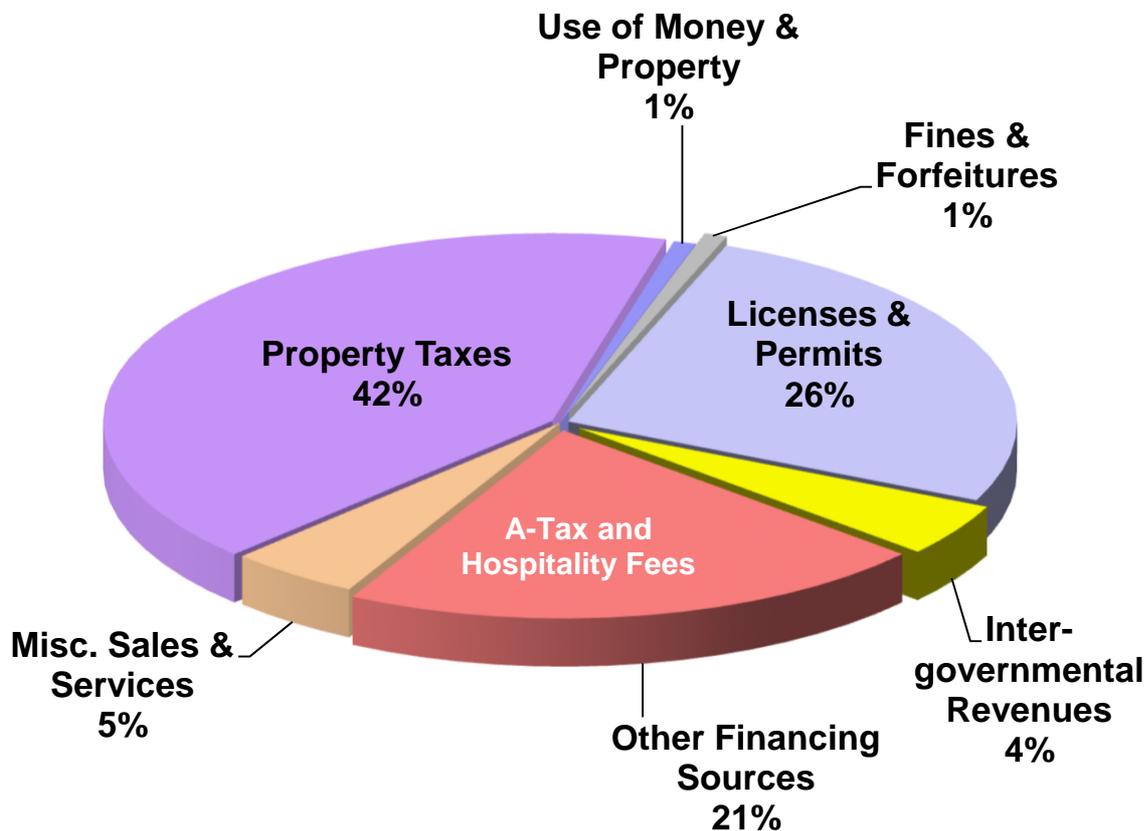

**REVENUES AND EXPENDITURES COMPARISON
BUDGETS FOR PAST 10 FISCAL YEARS**

The above chart reflects the fact that over the last ten years the City of North Myrtle Beach has maintained either a balanced budget for the General Fund or in some years a surplus. The increase in the budget is basically expected growth in personnel expenditures for pay raises which also result in benefit costs. There is also a significant increase in capital transfers for infrastructure improvements throughout the City. The infrastructure improvements are expected to continue over the next five years, as long as the General Fund continues to show steady growth in revenues.

GENERAL FUND REVENUES BY TYPE

The chart shown below illustrates the various General Fund revenue sources by type. Property Tax continues to be the highest source of revenues at 42%. Licenses and Permits are the second significant revenue source making up 26% of the FY 2026 budget. The third largest source of revenues is 21% for Local A-Tax & Hospitality Fees. Other revenue categories have changed very little from the last fiscal year. Revenue diversification continues to be a goal of the Mayor and City Council.

GENERAL FUND EXPENDITURES BY TYPE -- FY 2026

The following chart illustrates Expenditures by Type. A detailed discussion of Debt Service and its effect on the City's financial position can be found in the Debt Service Section of the General Fund. The City continues to provide quality equipment for employees in order to deliver services efficiently and effectively to the citizens of North Myrtle Beach and its many visitors. The largest expenditure continues to be personnel costs. The following chart illustrates the percentage each type makes up of the Budgeted Expenditures:

The table below shows a four-year comparison of General Fund Expenditures by Type.

GENERAL FUND EXPENDITURES BY DEPARTMENT -- FY 2026

Expenditures by Department is another useful way to review expenditures. The largest department within the General Fund is the Public Safety Department. Most fluctuations between departments over the last three years are a result of capital items and the addition of new positions.

DIVISION NARRATIVE

This division provides for salaries and other expenses related to the City's seven elected officials, a Mayor and six Council members. Although only four Council members have district residency requirements, all are elected at-large to serve four-year terms. All legislative powers and determinations of policy matters are vested in City Council. Council employs a City Manager to serve at its pleasure. Council also establishes other administrative departments and creates, changes, or abolishes any other office, department, or agency upon recommendations of the City Manager. City Council, with the advice of the City Manager, has the authority to appoint all committees, boards, and commissions related to municipal affairs.

The Assistant City Clerk supports legislative and administrative functions related to Council meetings, including preparation, generating meeting records, and assisting with archiving responsibilities and the codification of City ordinances. This position contributes to the management of the appointment process for boards and commissions, monitors term expirations, and helps coordinate meeting schedules. The Assistant City Clerk plays a critical role in addressing citizen complaints by coordinating with various departments to ensure timely resolution. Participation in the Municipal Clerks and Treasurers Institute (MCTI) and coordinating with the Municipal Elections Commission for municipal elections are also important aspects of this role.

DIVISION 911 DEBT SERVICE

DIVISION NARRATIVE

Overview of Debt Policies

Debt service payments for the General Fund are 0.00% of the total General Fund expenditures.

The last general obligation bond issue was sold in FY 2025 in order to provide funding for the North Myrtle Beach Park and Sports Tourism Complex expansion. The bond issue totaled \$27 million with a 10-year repayment schedule that starts in FY 2026.

The debt limit imposed by the State of South Carolina on local governments prevents them from incurring high levels of debt without voter approval. Article 10, Section 14.7(a) of the South Carolina Constitution limits General Obligation debt to 8% of assessed value of all taxable property. The debt limit for North Myrtle Beach for FY 2026 is estimated at \$44,366,667 which is more than sufficient should the City need to borrow funds. The table below provides for the City's FY 2026 Legal Debt Margin.

**COMPUTATION OF LEGAL DEBT MARGIN

ASSESSED VALUATION	<u>\$610,416,667</u>

LEGAL DEBT LIMIT MARGIN - JULY 1, 2025	<u>\$21,833,333</u>

Short-Term Debt

This budget provides management the opportunity to borrow short-term funds up to 24 months at 2.0% over the city's current CD rate. This allows for flexibility in cash flows and the low cost funding of some capital purchases/projects.

Existing Debt

There are outstanding General Obligation Bonds in the amount of \$27,000,000 as of July 1, 2025.

Conclusion

It has been the policy of the City to issue debt only for significant projects that have long term benefits.

The City of North Myrtle Beach will continue to apply sound financial policies to its debt service needs in order to maximize this valuable financing mechanism.

**GENERAL FUND
OTHER FINANCING USES**

No employees are assigned to this division. Only transfers to other funds are recorded here. A summary of expenditures for the past three years of this division is provided below. This division has no overhead allocation. The purpose of this division is to account for funds transferred from the General Fund to other funds in order to purchase equipment, construct City infrastructure or assist in meeting other obligations.

The General Fund contingency in this division is to provide funding for unusual events that are not anticipated at this time.

The transfer to the Park Improvement Fund for FY 2026 is primarily for the purpose of covering debt service on the park.

The transfer to the Capital Improvement Fund for FY 2026 is primarily for Fire Station #7.

The transfer to the Street Improvement Fund is for resurfacing, sidewalks, intersection improvements, and beach access improvements. It has been the policy of the City to transfer funds annually to the Street Improvement Fund to continue its ongoing street improvement program.

The transfer to the Pension Trust Fund is used to cover the obligations from the old pension fund that was incurred prior to 1994 when the Fund was closed as the pension fund for general employees. Since this time all general employees participate in a 401(A) defined contribution plan.

This division provides for the 30% Accommodations Tax advertising money as well as stipends to other agencies that are not part of the City Government.

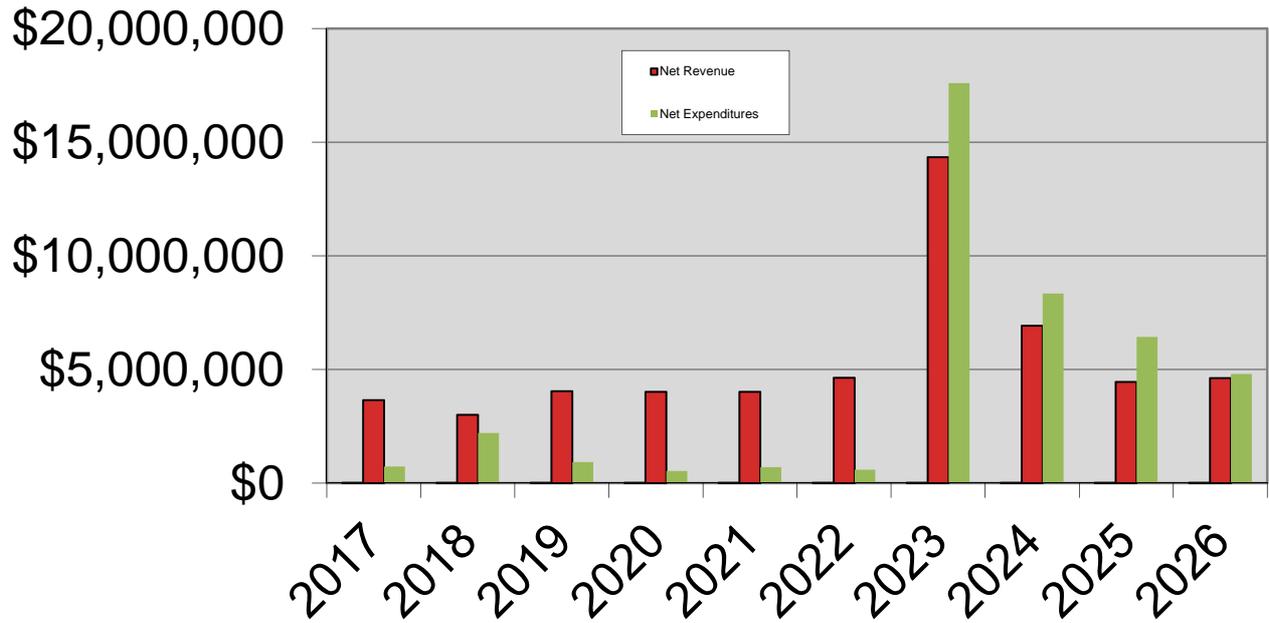

BUDGET ANALYSIS

The increase in this division is due to an increase in the funding to the NMB Chamber of Commerce and to outside agencies.

CAPITAL IMPROVEMENT FUNDS

The City of North Myrtle Beach will budget five Capital Project Funds for FY 2026. These funds are: The Storm Water Drainage Fund, the Capital Improvement Fund, the Street Improvement Fund, the Beach Renourishment Fund, and the Cherry Grove Dredge Fund.

FEE REVENUES and CAPITAL EXPENDITURES COMPARISON
ACTUALS FOR PAST 10 FISCAL YEARS***
* (last 3 Fiscal Years are Estimated and Budgeted)

The chart above reflects the net revenues and expenditures in this fund for the ten most recent fiscal years. In an effort to illustrate actual fee collections and capital expenditures, amounts for loan proceeds and principal payments have been removed from revenues and expenditures for each corresponding year.

Since the inception of the Stormwater Drainage Fund total revenues are \$85,506,567 while total expenditures are \$74,906,295. These amounts reflect the construction of six ocean outfalls and numerous smaller drainage projects.

This fund will include the start of the ocean outfall at 17th Avenue South in FY 2026. The remaining construction of this project will be included in the FY 2027 Budget.

**STORM WATER DRAINAGE FUND

The Storm Water Drainage Fund was created during FY 2002 by adoption of the Storm Water Management Ordinance. This Capital Improvements Fund is used to record all revenues and expenditures related to the City's storm water drainage capital improvement plan including ocean outfalls. The monthly fee was adjusted at the beginning of FY 2017 to \$8/ERU and \$5.50/multi-family unit and will remain the same for this fiscal year.

**PARK IMPROVEMENT FUND
FUND 07**

The Park Improvement Fund was used to construct the North Myrtle Beach Park and Sports Complex. This fund will now see the expansion of that park by an additional 96 acres that was purchased in FY 2020.

For FY 2026 this fund will account for the expansion of the sports park for the next year. Significant infrastructure improvements will be needed within the new park expansion. Six softball fields and six soccer fields will be included in the expansion as well as several other amenities. The basic design and land costs were paid off in FY 2023. A General Obligation Bond was required to fund most of the park improvements.

The following table illustrates the budget data for the Park Improvement Fund for revenues and expenditures:

**BEACH RENOURISHMENT FUND
FUND 10**

The Beach Renourishment Fund was created during FY 1995 with a \$150,000 operating transfer from the Accommodations Tax Fund. The initial funds were used for the beach surveying and easement acquisition parts of the \$22.36 million Army Corps of Engineers Beach Renourishment Project. The funding of this project was 65% federal, 17.5% state, and 17.5% local or City of North Myrtle Beach share. The City's share was provided by a General Obligation Bond Issue during FY 1996. This bond issue was paid off in FY 2006.

The City provided the Army Corps of Engineers with \$3,752,000 to cover the City's and the State's share of the 2nd renourishment project. The State reimbursed the City the \$1,876,000 to cover their 17.5% share of the project that was done during FY 2009. The City received the final \$460,766 reimbursement from the Army Corp of Engineers in October 2011. Three more beach renourishment projects were completed between 2017 through 2020 totally funded by the Army Corps of Engineers.

The financial summary below outlines the fund's history and projections from FY 2023 through the FY 2026 budget. The FY 2026 Budget continues the reconstruction of beach front walkovers and accesses.

**CHERRY GROVE DREDGE FUND
FUND 11**

The Cherry Grove Dredge Fund was established to account for the costs of dredging the canals in east Cherry Grove and provide for all the associated costs with the completion of this project. A Special Assessment Bond in the amount of \$3,242,000 was issued and \$1,400,000 was prepaid by property owners during FY 2023 in order to provide the funding necessary to dredge the selected channels throughout the designated area.

The district has been established to last ten years with the inclusion of two dredges. Both dredges have been completed. Individual assessments will be made by Horry County for beneficial properties not to exceed \$2,400 per year starting in October.

REVENUES AND EXPENSES COMPARISON
BUDGETS FOR PAST 10 FISCAL YEARS**

The chart above reflects a surplus of \$39,786 for FY 2026 which includes impact fees. Revenues include a rate increase for the annual rate increases from Grand Strand Water and Sewer. The increase in expenditures is due to a rise in operating costs and from repair expenditures.

WATER & SEWER UTILITY FUND

The Water and Sewer Fund at this time has no debt. This budget does provide for a revenue bond sale, if all the various capital projects begin in FY 2026.

The following table illustrates the comparative data for revenues in the Water and Sewer Fund. An estimated 300 new customers could be added during the year.

WATER & SEWER UTILITY FUND

Capital replacement is an important aspect of any enterprise operation. The Water and Sewer Fund, which has assets of over \$140,000,000, replaces between \$1,700,000 and \$3,000,000 of operating equipment/assets annually. This budget year will see operating equipment purchases at the lower end of the range. The following list covers the scheduled replacements and improvements for the FY 2026 budget year which will be funded by operational cash.

Impact fees are imposed on new customers who join the water and sewer system. The impact fees are used solely for the capital expansion of the system. For FY 2026, the expenditures listed below outline the capital projects that will be paid by Impact Fees.

Impact Fee rates will in adjusted by 5% in October in accordance with City Ordinances. Inflation for construction costs continue to rise faster than the rate of inflation within the overall economy.

**SOLID WASTE FUND
DEPARTMENT OF PUBLIC WORKS**

**REVENUES AND EXPENSES COMPARISON
BUDGETS FOR PAST 10 FISCAL YEARS**

The chart above reflects a surplus of \$553,199 for FY 2026. Solid Waste fees will remain the same as FY 2025 for both residential and commercial customers. These rates will allow the fund to remain profitable and allow sufficient cash flow to purchase needed equipment as well as fund several capital projects. A new rate was put in place during FY 2022 in order to provide additional pickups for short term rentals and this rate will remain the same for FY 2026.

The Solid Waste Fund was created in FY 2001. This fund accounts for all revenues and expenses related to the City's solid waste activities. Much like the existing Water and Sewer Utility Fund, the Solid Waste Fund is a proprietary fund that operates like private enterprise, using a full accrual basis of accounting. This approach enables the City to more accurately assess fees and charges for solid waste services, and ensures that citizens receive the most cost efficient services possible.

The current rates within the Solid Waste Fund are substantially below those in surrounding jurisdictions.

BEACH SERVICES FUND

The following table illustrates the capital purchases for the fund. Even though some items such as beach chairs and beach umbrellas by themselves did not meet the individual capitalization programs threshold of \$10,000, it would be inappropriate to charge these expenditures in the first year of service. These items have a useful life much longer than one year and as a whole are a major expense in the on-going function of this enterprise. Beach chairs and umbrellas will be depreciated over a five year period.

Employee Benefits

The City continues to offer employees a competitive benefits packet. In 1994, the City changed the retirement program for all general employees and firefighters to a 401(a) plan that is managed by the International City Management Association Retirement Corporation (ICMA-RC). All of the previous plan retirement funds were rolled into the new program as employees took advantage of the opportunity to go from a “defined benefit” plan to a “defined contribution” plan. The new 401 (a) plan reduced the retirement age to 55 and allowed employees to have the flexibility to manage their own retirement fund through investment opportunities available through ICMA-RC. The City’s death and disability portion of employee benefits also changed to an insured benefit program with disability and life benefits provided through an outside insurance provider. In 2002, the firefighter employees voted to transfer to the South Carolina Police Officers Retirement System.

The City also set up a short-term and long-term disability program, and a retirement program that meets the future needs of the employees and is competitive with the South Carolina Police Officers Retirement System, which had been in effect since the 1970s. Self-funding enables the City to cut costs in administering its retirement program and earn top-dollar on investments. It also enables the City to provide a full disability and retirement program to its employees.

The City’s health insurance program is that of an “experience-rated” format (cost based on actual claims) at this time, instead of the pool coverage plan. The experience rating allows the City to match premiums with actual health insurance costs while continuing to offer four separate levels of coverage (employee, employee-spouse, employee-children, and full family).

In FY 2006 the City enhanced their Health Reach Program with a voluntary comprehensive 12-month incentive-based Wellness Program. In FY 2019, the City further enhanced the program by setting up an in-house health clinic. This program provides immediate health services to all City employees as well as dependents on their City health insurance. It enhances the existing Wellness Program and will hopefully reduce costs associated with health.

Over thirty years ago, the City initiated a “Flex Spending” benefit that enables employees to pay out-of pocket, child care or health care expenses from pre-tax rather than after-tax dollars, with more money in the employee’s pocket as a result. The City has also been energetic in other areas of employee benefits including a contribution to a Health Reimbursement Account based on the Wellness Program. A Longevity Bonus Program continues to reward employees for years of faithful service.

Training remains a top priority and employees are urged to develop their work skills. Training is offered and often required in order to keep employees proficient and up to date in their work. Training is often obtained through cooperative efforts by area governmental entities, with Horry-Georgetown Technical College offering a nearby training resource. Specific training opportunities through professional organizations are another alternative used in getting needed training for City employees.

The City stresses professionalism through membership and participation in professional and civic organizations and continues to emphasize good customer service.

The City initiated an “Employee of the Month” and “Supervisor of the Quarter” award in 1988-89. The Employee of the Month award recognizes two employees each month for outstanding service to their departments and the City. The Supervisor of the Quarter award is given to those supervisors who go above and beyond the call of duty to see that their employees perform at their best. These programs are proposed to continue in FY 2026.

Employee Compensation

For FY 2026, the salary ranges have been adjusted by 3% and a 5% pay increase will go into effect during the year for employees in order to stay competitive with surrounding local government entities.

LEGAL AUTHORIZATION: Ordinance Adopted 15 May 1984

Ordinance Adopted 25 September 1983

FUND: General **ACCOUNT CODE:** 01-270-700

DESCRIPTION OF REVENUE:

The Fund Balance is an amount stated in dollars that is generated over the previous fiscal years by revenues over expenditures. Fund Balance is a residual equity account that records the amount available for expenditures. Current budget policy requires that a 35% balance to expenditures be maintained on an annual basis.

BASE:

Cash + Receivables + Inventory + Other Current Assets - Accounts Payable,
Accrued Salaries & Other Current Liabilities = Fund Balance

The proposed FY 2026 Fund Balance retains a "low-revenue month" reserve and contingencies for unexpected emergencies. Mayor and Council policy for fund balance is to remain above 35% of General Fund Expenditures.

COMMENTS:

The Fund Balance can be designated by Mayor and Council or management for specified purposes or left undesignated. Fund Balance as of July 1, 2025 is estimated to be around \$23,646,443 which is above the 35% level fund balance policy.

REVENUE ITEM: Electric Franchise Fees – Santee Cooper, Horry Electric

LEGAL AUTHORIZATION: Franchise Agreement

FUND: General **ACCOUNT CODE:** 01-320-410 & 01-320-412

DESCRIPTION OF REVENUE:

By Franchise and Ordinance effective July 1, 2005, the City and South Carolina Public Service Authority agreed to a 30-year franchise whereby the Authority will construct and maintain the City's electricity system.

FEE SCHEDULE:

By amendment dated May 1, 2003, on July 15 and January 15 annually, the Authority will pay to the city 3% of the revenues received from electricity that is provided to customers within the City limits, excluding electric service paid by the City itself. Also Santee Cooper will set aside another 2% for a match program to put electrical lines under ground.

BASE:

Revenues are based on previous years' revenues, estimated growth, and gross receipts of electricity sales. The following schedule is used for computation:

5% on gross charges

COMMENTS:

A special fund was established in FY 2007 that will be used solely for underground construction or conversion projects within the city of North Myrtle Beach. The fund is sustained by matching annual payments from the Authority and the City equaling 2% of the revenues received by the Authority each year for providing electricity to customers within the city limits. At the same time, there was an amendment to the original agreement which allowed the City to increase the franchise fee from 3% to 5%. Growth in this revenue source appears to have slowed due to conservation efforts and mild weather.

DESCRIPTION OF REVENUE:

GLOSSARY OF TERMS

Appendix I

ACCOUNTING SYSTEM. The total structure of records and procedures which discover, record, classify, summarize, and report information on the financial position and results of operations of a government or any of its funds, fund types, balanced account groups, or organizational components.

ACTIVITY. A specific and distinguishable line of work performed by one or more organizational components of a government for the purpose of accomplishing a function for which the government is responsible. For example, "food inspection" is an activity performed in the discharge of the "health" function.

AD VALOREM TAX. A tax levied on the assessed value of real property. This tax is also known as property tax.

APPROPRIATION. A legal authorization granted by a legislative body to make expenditures and to incur obligation for specific purposes. An appropriation is usually limited in amount and as to the time when it may be expended.

ASSESSED VALUATION. A valuation set upon real estate or other property by a government as a basis for levying taxes.

AUDIT. A methodical examination of utilization of resources. It concludes in a written report of its findings. An audit is a test of management's accounting system to determine the extent to which internal accounting controls are both available and being used. A financial audit is a review of the accounting system and financial information to determine how government funds were spent and whether expenditures were in compliance with the legislative body's appropriations. See COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR).

BOND. A written promise to pay a specified sum of money, called "face value" or "principal amount", at a specified date or dates in the future, called the "maturity date(s)", together with periodic interest at a specified rate. The difference between a note and a bond is that a bond runs for a longer period of time and requires greater legal formality. **General Obligation (G.O.) Bonds** are backed by the full faith and credit of the jurisdiction. **Revenue Bonds** are backed by the income-producing potential of a capital project, i.e., municipal parking garage.

BUDGET. A plan of financial operations embodying an estimate of proposed expenditures for a given period and the proposed means of financing them. Used without any modification, the term usually indicates a financial plan for a single fiscal year. The term "budget" is used in two senses in practice. Sometimes it designates the financial plan presented to the appropriating body for adoption and sometimes the plan finally approved by that body. It is usually necessary to specify whether the budget under consideration is preliminary and tentative or whether it has been approved by the appropriating body. Types of budgets: (1) Annual Operating Budget - a budget applicable to a single fiscal year; (2) Capital Budget - a plan of proposed capital outlays and the means of financing them; (3) Capital Program Budget - a plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long-term work program or otherwise; and (4) Long-Term Budget - a budget prepared for a period longer than a fiscal year.

BUDGET ADJUSTMENT. Legislative mechanism to allow for funds and departmental expenditures to exceed their original, beginning year allocation. The authorization becomes effective immediately after passage by City Council.

GLOSSARY OF TERMS

Appendix I

BUDGETARY CONTROL. The control or management of a government or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenue.

BUDGET MESSAGE. A general discussion of the proposed budget as presented in writing by the budget-making authority to the legislative body. The budget message should contain an explanation of the principle budget items, an outline of the government's experience during the past period and its financial status at the time of the message, and recommendations regarding the financial policy for the coming period.

CAPITAL EQUIPMENT. Equipment with an expected life of more than one year, such as automobiles, typewriters, and furniture.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR). The official annual report of a government. It includes five combined statements - Overview (the "liftable" GPFS) and basic financial statements for each individual fund and account group prepared in conformity with GAAP and organized into a financial reporting pyramid. It also includes supporting schedules necessary to demonstrate compliance with finance-related legal and contractual provisions, extensive introductory material, and a detailed statistical section. Every government should prepare and public a CAFR as a matter of public record.

CONTINGENCY. An appropriation of funds to cover unforeseen events that occur during the fiscal year.

CURRENT TAXES. Taxes levied and becoming due within one year.

DEBT. An obligation resulting from the borrowing of money or from the purchase of goods and services. Debts of government include bonds, time warrants, notes, and floating debt. Types of debt: Bond (see "Bond"); Note Payable (generally an unconditional written promise signed by the maker to pay a certain sum of money on demand or at a fixed or determinable time); Time Warrant (a negotiable obligation of a government having a term shorter than bonds and frequently tendered to individuals and firms in exchange for contractual services, capital acquisitions, or equipment purchases); Floating Debt (liabilities other than bonded debt and time warrants, such as accounts payable); and Long-Term Debt (debt with a maturity of more than one year after the date of issuance).

DEBT LIMIT. The maximum amount of general obligated debt which is legally permitted. In North Myrtle Beach's case, the State of South Carolina mandates that incurred debt is not to exceed eight percent of the assessed value of all taxable property within the jurisdiction.

DEBT SERVICE. The payment of principal and interest on borrowed funds such as bonds.

DEFICIT. (1) The excess of liabilities of a fund over its assets. (2) The excess of expenditures over revenues during an accounting period; or in the case of proprietary funds, the excess of expense over income during an accounting period.

DELINQUENT TAXES. Taxes remaining unpaid on and after the date on which a penalty for non-payment is attached. Even though the penalty may be subsequently waived and a portion of the taxes may be abated or cancelled, the unpaid balances continue to be delinquent until abated, cancelled, paid, or converted in tax liens.

DEPARTMENT. A major division of the city by function performed.

ENTERPRISE FUND. A fund established to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital

maintenance, public policy, management control, accountability, or other purposes. Examples of Enterprise Funds are those for water, gas, and electric utilities; swimming pools; parking garages; and transit systems.

ENTITY. The basic unit upon which accounting and/or financial reporting activities focus. The basic governmental legal and accounting entity is the individual funds and account group. Under NCGA Statement I, governmental GAAP reporting entities include: (a) the Combined Statements-Overview (the "liftable" GPFS); and (b) financial statements of individual funds (which may be presented as columns or combining statements by fund type, or physically separate individual fund statements, or both). The term "entity" is also sometimes used to describe the composition of "the government as a whole" (whether the library is part of the city or a separate government, whether the school system is part of the county or an independent special district, etc.).

EXPENDITURES. Decreases in net financial resources. Expenditures include current operating expenses which require the current or future use of net current assets, debt service, and capital outlays. Budgetary Expenditures (decreases in net current assets) are limited in amount to exclude amounts represented by non-current liabilities. Conventional Expenditures (decreases in net financial revenues), in contrast to budgetary expenditures, conventional expenditures are not limited in amount to exclude amounts represented by non-current liabilities.

FIDUCIARY FUNDS. Trust and Agency Funds are used to account for assets received and held by the city acting in the capacity of an agent or custodian. The City of North Myrtle Beach maintains the following trust and agency funds: (1) Pension Trust; (2) Fireman's Insurance; and (3) Deferred Compensation.

FISCAL PERIOD. A period of less than 12 months to which an operating budget applies and at the end of which a government determines its financial position and the results of its operations. North Myrtle Beach's 1993 Fiscal Period was from October 1, 1992 through June 30, 1993 (nine months).

FISCAL YEAR. A 12-month period to which the annual operating budget applies and at the end of which a government determines its financial position and the results of its operations. North Myrtle Beach's fiscal year is July 1 through June 30.

FIXED ASSETS. Assets of a long-term character which are intended to continue to be held or used, such as land, buildings, improvements other than buildings, machinery and equipment.

FUND. A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. There are eight generic fund types found in governmental accounting: General, Special Revenue, Debt Service, Capital Projects, Special Assessment, Enterprise, Internal Service, and Trust and Agency.

FUND BALANCE. The fund equity of governmental funds and trust funds.

GENERAL FUND. The fund used to account for all financial resources except those required to be accounted for in another fund.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP). Uniform minimum standards and guidelines for financial accounting and reporting. They govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules, and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application but also detailed practices and procedures. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to state and local governments is the GASB.

GLOSSARY OF TERMS

Appendix I

LEVY. (Verb) To impose taxes, special assessments, or service charges for the support of governmental activities. (Noun) The total amount of taxes, special assessments, or service charges imposed by a government.

MILL Property tax rate which is based on the valuation of property. A tax rate of one mil produces one dollar of taxes on each \$1,000 of property valuation.

MILLAGE. Rate used in calculating taxes based upon the value of property, expressed in mils per dollar of property value.

LMODIFIED ACCRUAL BASIS. The accrual basis of accounting adapted to the governmental fund-type measurement focus. Under it, revenues and other financial resource increments (e.g., bond issue proceeds) are recognized when they become susceptible to accrual, that is when they become both "measurable" and "available to finance expenditures of the current period." "Available" means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized when the fund liability is incurred except for (1) inventories of materials and supplies that may be considered expenditures either when purchased or when used, and (2) prepaid insurance and similar items that may be considered expenditures either when paid for or when consumed. All governmental funds, expendable trust funds, and agency funds are accounted for using the modified accrual basis of accounting.

OPERATING BUDGET. Plans of current expenditures and the proposed means of financing them. The annual operating budget (or, in the case of some state governments, the biennial operating budget) is the primary means by which most of the financing, acquisition, spending, and service delivery activities of a government are controlled. The use of annual operating budgets is usually required by law. Even when not required by law, annual operating budgets are essential to sound financial management and should be adopted by every government. See **BUDGET**.

OVERHEAD ALLOCATION. Amounts paid by various funds to help supplement expenditures made in the General Fund and the Water and Sewer Fund. The percentage of overhead allocation is based on a cost-accounting effort conducted initially in 1985 and reviewed every year. The Overhead Allocation or contribution to General Fund is based on the theory that numerous General Fund operations are conducted to aid Utility Fund functions. For example, the Utility Fund has no type of fleet management function. Therefore, the fleet management division within the General Fund maintains Utility Fund equipment. In essence, the Utility Fund "pays" the General Fund for these services. The Overhead Allocation also works much like a franchise fee. Since the Utility Fund is operated like a business, the rationale is that the fund should be obliged to pay a fee to operate within the City, just like any other profit-making business.

PROPERTY TAX. A tax levied on the assessed value of real property. This tax is also known as ad valorem tax.

REVENUES. The income of a government from all sources, appropriated for the payment of the public expenses.

SPECIAL ASSESSMENT. A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

SHARED REVENUES. Revenues levied by one government but shared on a predetermined basis, often in proportion to the amount collected at the local level, with another government or class of governments. The Accommodations Tax in North Myrtle Beach is an example of a shared revenue.

TAXES. Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits such as special assessments. Neither does the term include charges for services rendered only to those paying such charges, for example, sewer service charges.

GLOSSARY OF TERMS

Appendix I

USER FEES. Those amounts received from the public for performance of specific services benefiting the persons charged. User charges function much like prices charged for privately produced goods. There exists two types of user charges: (1) Marginal-cost, multipart charge system that takes into account the varying costs of production and distribution; and (2) Average-cost system that charges the same price per unit regardless of the volume of service consumed or the location of its demand. North Myrtle Beach has in place user fees associated with its water and sewer system.
