## Human Resources

## HUMAN RESOURCES REPORT – AUGUST 2021

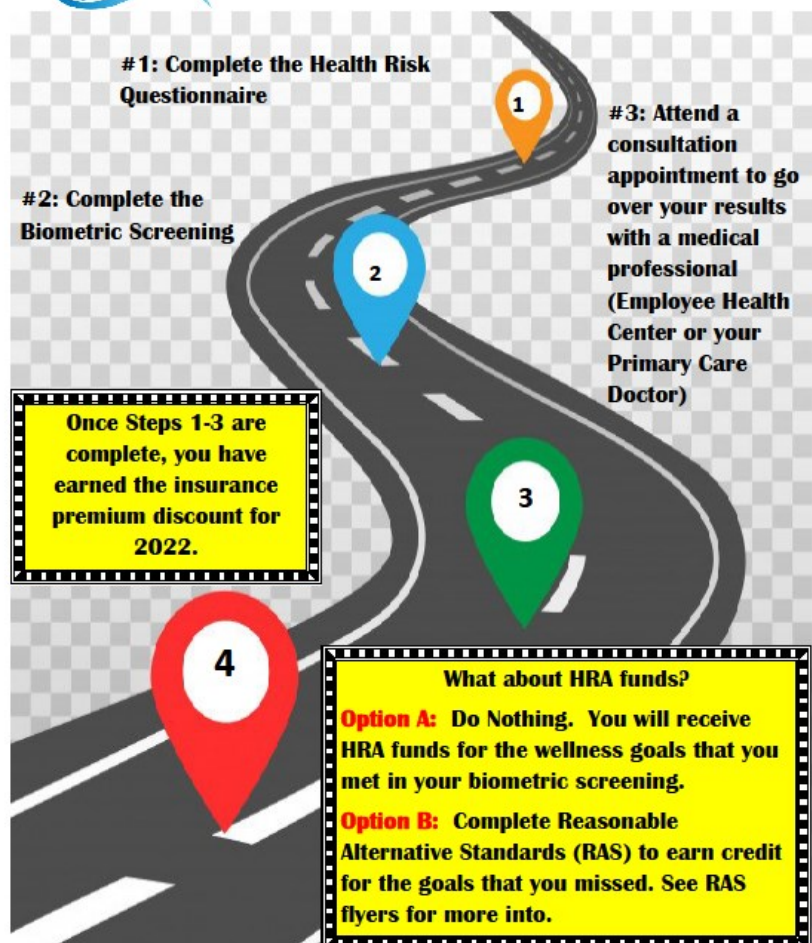

Human Resources employees were busy assisting departments and processing new and separating employees, employee performance appraisals, pay adjustments and 555 applications/resumes were processed. We continued to assist departments on human resources matters including job postings, announcements, job descriptions, evaluations and change of status forms. We assisted employees with health/life insurance, retirement issues and other personnel-related matters.

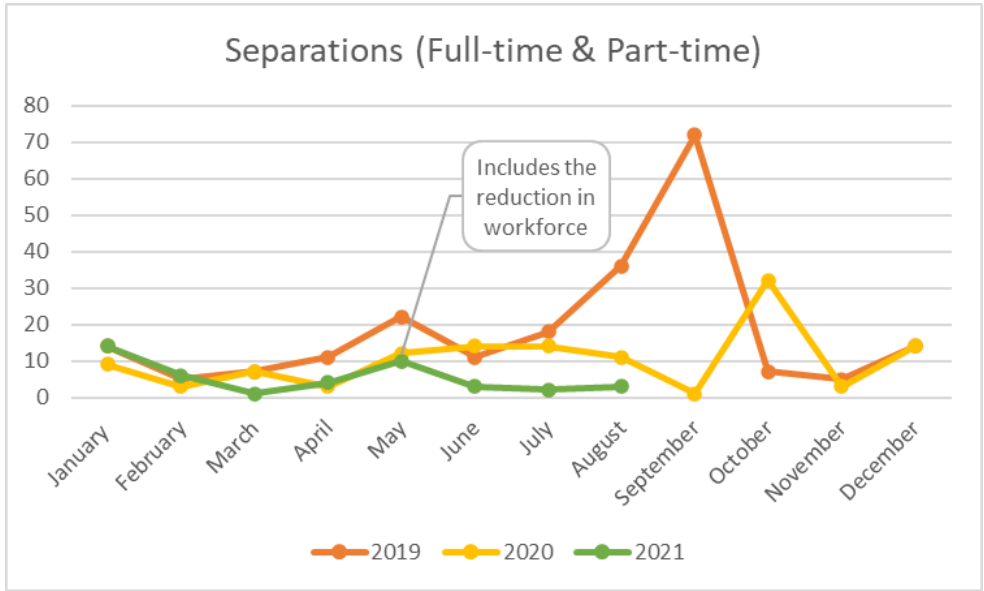

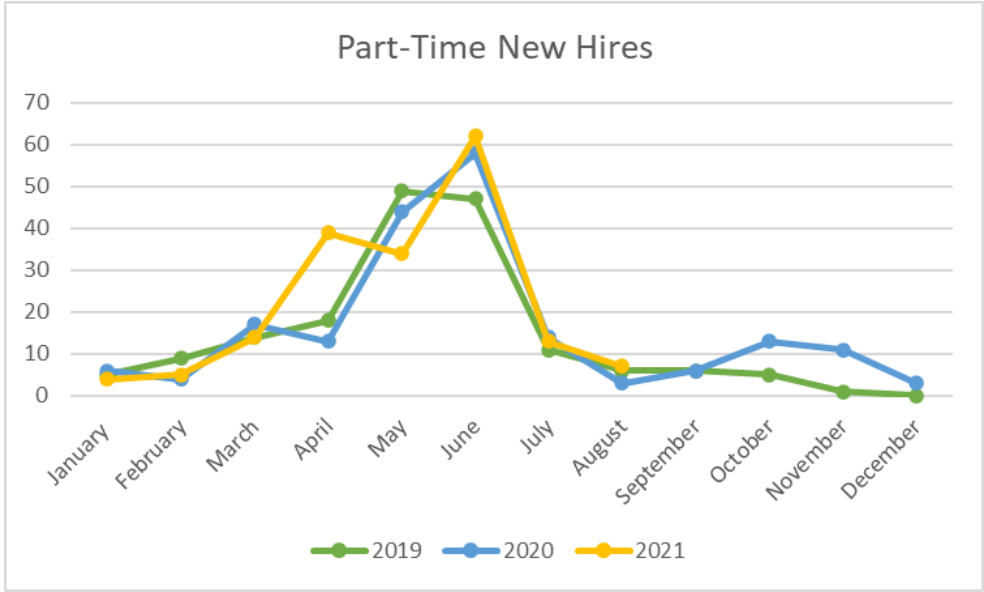

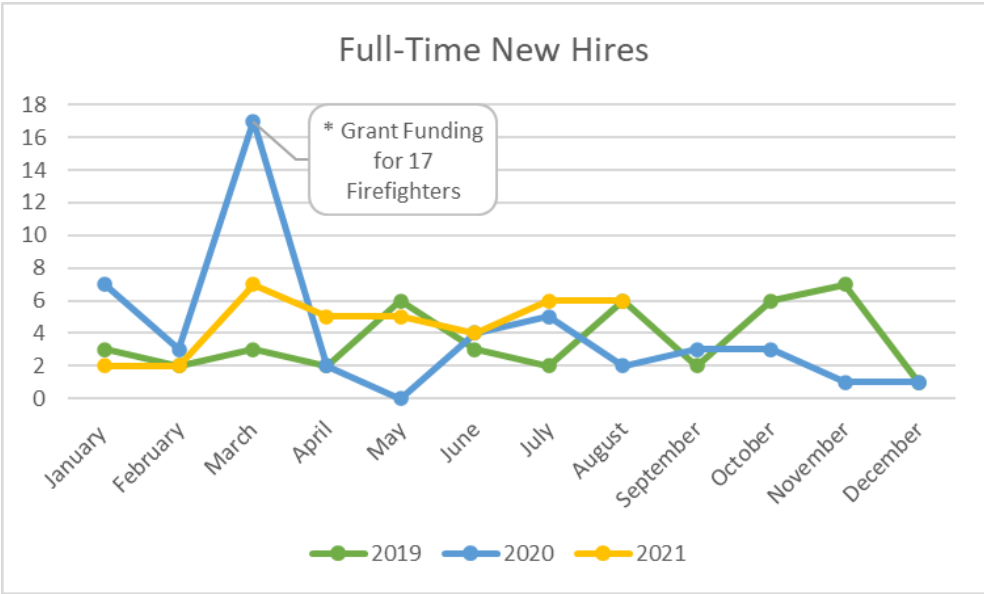

New employees received orientation sessions throughout the month. Part-time orientations were completed online in order to minimize traffic inside the building. Full-time employees attended in person orientations to receive information about the City and were enrolled in the City's Health and Wellness Program and other benefits.

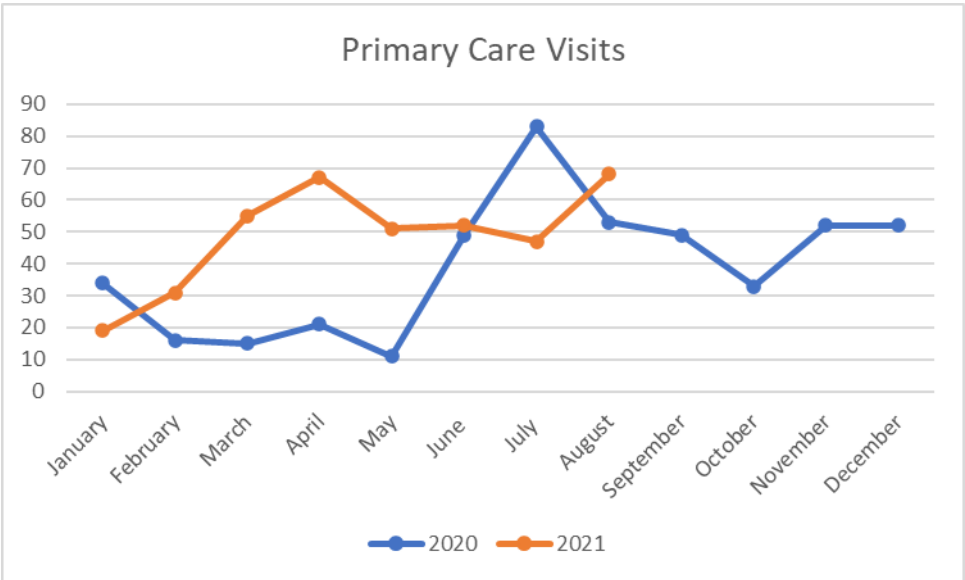

Human Resources also encouraged employees to complete wellness consultations through the month of August & September. The deadline to complete wellness consultations is October 15th.
