

REQUEST FOR CITY COUNCIL CONSIDERATION

Meeting Date: July 18, 2022

Agenda Item: 6E	Prepared by: L. Suzanne Pritchard, PLA, AICP, CFM
Agenda Section: Unfinished Business: Ordinance. Second Reading	Date: July 14, 2022
Subject: Petition for annexation and zoning designation for ±60.55 acres on Little River Neck Road [Z-22-9]	Division: Planning and Development

Background:

Robert S. Guyton, agent for the owner, has petitioned the City of North Myrtle Beach to annex approximately 60.55 acres of property located off Little River Neck Road identified by PIN 351-00-00-0179. The petition also reflects the requested City of North Myrtle Beach zoning district of Single-Family Low-Medium Density (R-1B). The subject area is identified as Conservation Community on the Future Land Use Map, and the request is not consistent with the Comprehensive Plan. However, there are no existing compliant zoning districts for this parcel as the Comprehensive Plan recommends the creation of a new, conservation development zoning district.

Existing Conditions:

The subject property area is contiguous to the corporate boundary of the City of North Myrtle Beach and is zoned CFA under Horry County jurisdiction. Located on Little River Neck Road, the parcel is currently vacant and undeveloped. Surrounding parcels within City limits are zoned Single-Family Residential Low Density (R-1), Mobile Home Residential (R-3), Conservation Preservation (CP), and Planned Development District (PDD) within the Charleston Landing PDD. Upon annexation, the parcel would be designated R-1B as per Exhibit A: Zoning Map (Z-22-9), prepared by the City of North Myrtle Beach Planning and Development Department depicting the annexation boundary. A proposed ordinance has been attached for Council's review.

Planning Commission Action:

The Planning Commission conducted a public hearing on May 17, 2022 and voted to recommend denial of the annexation and zoning designation because the Comprehensive Plan recommends no zoning district for this future land use class. There was no public comment.

Recommended Action:

Approve the proposed ordinance on second reading

ORDINANCE

**AN ORDINANCE OF THE CITY OF NORTH MYRTLE BEACH
ANNEXING 60.55 ACRES IDENTIFIED AS PIN 351-00-00-0179.**

WHEREAS, Robert S. Guyton, agent for the owner, has petitioned the City of North Myrtle Beach for annexation of 60.55 acres consisting of the following parcel PIN 351-00-00-0179 as referenced on Exhibit A: Zoning Map (Z-22-9), prepared by the City of North Myrtle Beach Planning and Development Department depicting the annexation boundary, which is attached hereto and incorporated herein by reference; and

WHEREAS, the North Myrtle Beach Planning Commission has provided the required public notice of this request and has held all necessary public hearings in accordance with applicable State Statutes and City Ordinances.

NOW, THEREFORE, BE IT ORDAINED by the Mayor and Council of the City of North Myrtle Beach, South Carolina, in Council duly assembled:

Section 1. Annexation. That parcel identified by PIN 351-00-00-0179 (the “Annexed Parcel”), consisting of approximately 60.55 acres and depicted on Exhibit A, and all contiguous portions of all public rights-of-way, streets, and highways are hereby annexed pursuant to Sections 5-3-150 and 5-3-240 of the Code of Laws of South Carolina, 1976, as amended.

Section 2. Zoning Designation. The Annexed Parcels are hereby designated and zoned as Single-Family Low-Medium Density (R-1B).

DONE, RATIFIED AND PASSED, THIS _____ DAY OF _____, 2022.

6A. ANNEXATION & ZONING DESIGNATION Z-22-9: City staff received a petition to annex lands on Little River Neck Road totaling ±60.55 acres and identified by PIN 351-00-00-0179. The lot is currently unincorporated and zoned Commercial Forest Agriculture (CFA) by Horry County. The petition also reflects the requested City of North Myrtle Beach zoning district of Single-Family Low-Medium Density (R-1B) and will be heard concurrently.

Existing Conditions and Surrounding Land Uses:

The subject property area is contiguous to the corporate boundary of the City of North Myrtle Beach and is zoned CFA under Horry County jurisdiction. Located on Little River Neck Road, the parcel is currently vacant and undeveloped. Surrounding parcels within City limits are zoned Single-Family Residential Low Density (R-1), Mobile Home Residential (R-3), Conservation Preservation (CP), and Planned Development District (PDD) within the Charleston Landing PDD.

R-1B District

	Single-Family Dwelling ²	Church	Other Permitted Uses
Minimum Site Area (square feet)	6,000 SF	1 acre	7,000 SF
Minimum Lot Width	50 feet	NA	NA
Minimum Yards	Front	25 feet	25 feet
	Side	5 feet	10 feet
	Rear	20 feet	25 feet
Maximum Impervious Surface Ratio	50%	60%	50%
Maximum Building Height	35 feet	45 feet	25 feet
Notes: 1. A dwelling unit shall not contain more than five bedrooms or sleeping areas of not more than 300 square feet each.			

Planning Commission Action:

As per the Zoning Ordinance Section 23-4, *Amendments*, the Planning Commission shall prepare a report and make recommendations on any proposed amendment to the North Myrtle Beach Zoning Ordinance, including the Zoning Map, stating its findings and its evaluation of the request. In making its report, the Commission shall consider the following factors:

- a) The relationship of the request to the Comprehensive Plan:

The Future Land Use map contained in the 2018 Comprehensive Plan recommends Conservation Community as the land use class for the subject area. There are no permitted or explicitly defined land uses for this land use class. There are no recommended primary or secondary zoning districts for this land use class; the plan refers to a future zoning district that has not yet been created.

The proposed zoning designation, R-1B, is not a primary or secondary recommended zoning district within the Compliance Index for the subject property.

- b) Whether the request violates or supports the Plan:

Chapter 5, “The Way We Grow,” of the 2018 Comprehensive Plan identifies the Conservation Community future land use classification as follows: This classification is intended to provide an alternative type of development that preserves undisturbed natural areas, creates common open spaces, and has a light impact on the environment. It is ideally applied to undeveloped greenfield land that may be adjacent to sensitive environmental areas like wetlands and waterways.

The proposed R-1B zoning is inconsistent with the Conservation Community land use classification found in the *2018 Comprehensive Plan*. However, as one of the least intense zoning districts, this district may better serve the goals of the comprehensive plan.

- c) Whether the uses permitted by the proposed change would be appropriate in the area concerned:

The purpose of the R-1B zoning district is, "To preserve and protect the character of existing neighborhoods and subdivisions, and to prohibit any uses which would compromise or alter existing conditions and uses. Also, these districts are intended to encourage residential infilling and expansion of existing neighborhoods and subdivisions. Development land uses permitted in each are designed to reflect existing conditions and enhance the prospects of 'lie development.'"

The uses permitted in the R-1B district would be appropriate in the area.

- d) Whether adequate public-school facilities, roads and other public services exist or can be provided to serve the needs of the development likely to take place because of such change, and the consequence of such change:

Current public rights-of-way serve this area via the existing, SCDOT-maintained Little River Neck Road. Access is subject to SCDOT encroachment review/approval. Additional access points subject to City review.

- e) Whether the proposed change is in accord with any existing or proposed plans for providing public water supply and sanitary sewer to the area:

Public water and sewer services are available to the parcel.

As a matter of policy, no request to change the text of the ordinance or the map shall be acted upon favorably, except:

- (a) Where necessary to implement the comprehensive plan, or
- (b) To correct an original mistake or manifest error in the regulations or map, or
- (c) To recognize substantial change or changing conditions or circumstances in a particular locality, or
- (d) To recognize changes in technology, the style of living, or manner of doing business.

This petition for annexation and zoning designation is presented to the Planning Commission for a recommendation that will be forwarded to City Council at their next meeting tentatively scheduled for June 20, 2022. Should the Planning Commission desire to forward a positive recommendation to City Council, one of the reasons should be included in the report.

Staff Review:

Planning and Development, Planning Division

The Planning Division has no issue with the proposed petition for annexation and zoning. However, staff would like to note that the 2018 Comprehensive Plan provides a model of development for this area; this model has been provided as an exhibit following this report. A development agreement also accompanies this annexation request with certain fees and public benefits described, and will be considered consecutively on the agenda.

Planning and Development, Zoning Division

The Zoning Administrator has no issue with the proposed petition for annexation and zoning.

Public Works

The City Engineer has no issue with the proposed petition for annexation and zoning.

Public Safety

The Fire Marshall has no issue with the proposed petition for annexation and zoning.

Planning Commission Action:

The Planning Commission may recommend approval, recommend approval with modifications and/or conditions; or recommend denial of the proposal, as submitted.

Alternative Motions

- 1) I move that the Planning Commission recommend approval of the annexation and zoning petition [Z-22-9] as submitted.

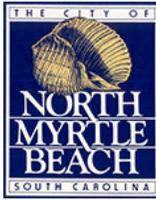

OR

- 2) I move that the Planning Commission recommend denial of the annexation and zoning petition [Z-22-9] as submitted.

OR

- 3) I move (an alternate motion).

5. Little River Neck Road Focus Area

Overview

Little River Neck Road is rapidly developing with a variety of residential uses, ranging from mobile home parks to luxury golf resorts with condos. This nearly 300-acre area of undeveloped parcels along a 0.9 mile stretch of Little Rive Neck Road could define the future character of this area of the City.

The focus area is bound by water with the Intracoastal Waterway at the northern end and Cherry Grove Marsh at the southern end; additional water bodies are scattered throughout the remainder of the site. The stretch of road included in the focus area has only two traffic lanes, one in either direction, with no curbs and narrow grass shoulders. There are no signalized intersections or turn lanes. Few properties have direct access to the Little River Neck Road along this stretch; it's mostly accessed through side streets into residential developments.

Existing Conditions

Limited Street Facing Residential

- ▶ Various housing options, mostly accessed through side streets

Streetscape

- ▶ No curbs and narrow shoulders
- ▶ Few turn lanes (none in focus area)
- ▶ No sidewalks
- ▶ No signaled intersections
- ▶ Split rail fence lining street in some sections
- ▶ Overhead power lines do not line the street the entire length, sometimes even crossing over the street

Issues and Opportunities

New Development

- ▶ Develop activity hubs around existing social centers like the Macedonia AME Church.
- ▶ Develop residential to face onto Little River Neck Road
- ▶ Create a water-based commercial hub on the Intracoastal Waterway, possibly with docks for boat access

Preservation and Open Space

- ▶ Preserve existing wet-lands and ponds to create pockets of open space inside new development
- ▶ Create other green open space opportunities throughout new development
- ▶ Buffer the Intracoastal Waterway and Cherry Grove Marsh from new development

Streetscape

- ▶ Add a multi-use path buffered by a planting strip on one side of the street
- ▶ Create an area of opportunistic informal plantings on the opposite side of the street
- ▶ Create a consistent edge of split rail fence, which adds to the character
- ▶ Widen Little River Neck road to three-lane section
- ▶ Create dedicated turning lanes or acceleration/deceleration lanes as new development warrants

Potential Conservation Communities along Little River Neck Road

Green fields and marsh lands along Little River Neck Road provide ample opportunities for development under the new Conservation Community land-use category. The vision plan on the previous page exemplifies a development created for the Conservation Community land-use category, and it is suggested that this land be classified as so if annexed into the city. It shows largely single-family lots with variations in depth and width to accommodate larger estates and more compact homes serviced by alleys. There are also a few strategically placed multi-family units, including those facing the Cherry Grove Marsh. At the other end of the development, facing onto the waterway, the small center shows a Marina Mixed-use development. This introduces a potential commercial and urban residential center typology along the waterway for restaurants, retail, and other neighborhood amenities. Another potential location for these uses is along Little River Neck Road with the introduction of neighborhood-scale commercial to service the long-term residents in the area.

The most notable feature of this development and the Conservation Community land-use category is the open space preservation. Being located next to the waterway and marsh, the land overall is very environmentally sensitive. The existing marshy areas that wind throughout the area would be preserved and buffered. Additional, formal open spaces are also shown to provide functional, communal space for the residents. These include a variety of parks for passive and active recreation, green fields, and large green buffers along the marsh and waterway for meandering paths or enclaves for non-motorized boating.

The street network for this example is laid out like a traditional urban community to promote connectivity within the neighborhood and to the larger surrounding community. This example does not preserve as much open space as may be desirable in this area. However, the key factor to consider when laying out a Conservation Community is the sustainability of compactness. It is more sustainable to create a small network of roads with dense housing that preserves large parcels of undisturbed land than meandering roads with housing dispersed throughout smaller, fragmented parcels of preserved land.

► One of the many informal green spaces preserved throughout the Conservation Community land-use category example.
