

REQUEST FOR CITY COUNCIL CONSIDERATION

Meeting Date: September 19, 2022

Agenda Item: 7E	Prepared by: L. Suzanne Pritchard, PLA, AICP, CFM
Agenda Section: New Business: Ordinance. First Reading	Date: September 14, 2022
Subject: Petition for annexation and zoning designation for 13.75 Acres on Water Tower Road [Z-22-17]	Division: Planning & Development

Note: Petitioner has requested postponement to the City Council Meeting scheduled for October 3, 2022

Background:

Roger Roy, agent for the owner, has petitioned the City of North Myrtle Beach to annex approximately 13.75 acres of property located on Water Tower Road identified by PINs 359-07-04-0011 and 359-07-04-0012. The petition also reflects the requested City of North Myrtle Beach zoning district of Medium Density Residential (R-2). The subject area is identified as Residential Suburban on the Future Land Use Map. This zoning is not supported by the City's comprehensive plan, and the Planning Commission failed to recommend approval of the annexation and zoning petition in a 3-3 vote.

Existing Conditions:

The subject property area is contiguous to the corporate boundary of the City of North Myrtle Beach and is zoned Commercial Forest Agriculture (CFA) under Horry County jurisdiction. Located on Water Tower Road across the street from Barefoot Resort, the parcel is currently unoccupied and vacant. Surrounding parcels within City limits are zoned R-2 and Planned Development District (PDD) under the Barefoot Resort PDD; adjacent unincorporated county parcels are zoned CFA.

Upon annexation, the parcel would be designated R-2 as per Exhibit A: Zoning Map (Z-21-17), prepared by the City of North Myrtle Beach Planning & Development Department depicting the annexation boundary. The R-2 district allows the following uses: Single-family detached dwellings, semidetached dwellings and duplexes, townhouse developments, family day care homes, multiplex (triplex and quadraplex) dwellings, and single-family in common projects. Within the R-2 district, heights are restricted to 35 feet for residential uses and the minimum single-family lot size is 5,000 square feet. A proposed ordinance has been attached for Council's review.

Planning Commission Action:

The Planning Commission conducted a public hearing on August 16 and failed to recommend approval of the annexation and zoning designation in a 3-3 vote. There was no public comment.

Recommended Action:

Approve or deny the proposed ordinance on first reading

6G. ANNEXATION & ZONING DESIGNATION Z-22-17: City staff received a petition to annex ±13.75 acres on Water Tower Rd identified by PINs 359-07-04-0011 and 359-07-04-0012. The lots are currently unincorporated and zoned Commercial Forest Agriculture (CFA) by Horry County. The petition also reflects the requested City of North Myrtle Beach zoning district of Medium Density Residential (R-2) and will be heard concurrently.

Existing Conditions and Surrounding Land Uses:

The subject property area is contiguous to the corporate boundary of the City of North Myrtle Beach and is zoned Commercial Forest Agriculture (CFA) under Horry County jurisdiction. Located on Water Tower Road across the street from Barefoot Resort, the parcel is currently unoccupied and vacant. Surrounding parcels within City limits are zoned R-2 and Planned Development District (PDD) under the Barefoot Resort PDD; adjacent unincorporated county parcels are zoned CFA.

- b) A dwelling unit shall not contain more than five bedrooms or sleeping areas of not more than 300 square feet each.

Notes: ¹ A seven-and-one-half-foot setback shall be applied to the ends of the structure and the exterior property line and zero-foot setback shall be allowed for the interior common property line.

² Zero feet between units; 10 feet between end structures and side property line; no more than six units shall be attached in one building; for projects with multiple townhouse buildings on land owned "in common" the site side yard setback shall be 20 feet.

³ Rear yard setback shall be 10 feet except where contiguous to the project site property line, then a twenty-foot setback shall be required, and shall remain unoccupied by any accessory building or structure.

⁵ Reference common open space requirements pursuant to section 23-119(4).

⁶ Minimum lot width and/or unit width.

Planning Commission Action:

As per the Zoning Ordinance Section 23-4, *Amendments*, the Planning Commission shall prepare a report and make recommendations on any proposed amendment to the North Myrtle Beach Zoning Ordinance, including the Zoning Map, stating its findings and its evaluation of the request. In making its report, the Commission shall consider the following factors:

- a) The relationship of the request to the Comprehensive Plan:
The Future Land Use map contained in the 2018 Comprehensive Plan recommends Residential Suburban as a land use class for the subject area. The principal permitted uses noted in the compliance index include primarily single-family lots, small farms and farm-related uses such as produce stands, and mobile homes on individual lots. The recommended primary zoning district is R-1; R-1A and R-1B are the secondary zoning district alternatives.

The proposed zoning designation, R-2, is not a primary or secondary recommended zoning district within the Compliance Index for the subject property.

- b) Whether the request violates or supports the Plan:
Chapter 5, "The Way We Grow," of the 2018 Comprehensive Plan identifies the Residential Suburban future land use classification as follows: The purpose of this classification is to define, protect, and provide low density, single-family detached housing areas where designated, and to prohibit any development that would compromise existing residential characteristics. In addition, these areas are intended to provide for in-fill and expansion of existing neighborhoods and subdivisions. Standards and densities for these areas are designated to reflect existing conditions. This area is also intended to allow incorporation of property west of the waterway at densities typical of inland development. Primarily single-family lots, small farms and farm related uses such as produce stands, and mobile homes on individual lots, excluding large mobile home parks, are compatible uses here. This category allows up to five dwelling units per acre (du/acre).

The proposed R-2 zoning is somewhat consistent with the Residential Suburban land use classification found in the 2018 Comprehensive Plan. However, the densities allowed in R-2 would be higher than the prescribed primary and secondary zoning districts.

- c) Whether the uses permitted by the proposed change would be appropriate in the area concerned:
The purpose of the R-2 zoning district is, "To provide for limited alternatives to single-family housing, smaller lot development and correspondingly higher densities, but not permit the crowding of development on individual lots or parcels."

The uses permitted in the R-2 district would be somewhat appropriate in the area, and the Water Tower Road area is in transition with a variety of uses and densities being developed in the City and county.

- d) Whether adequate public-school facilities, roads and other public services exist or can be provided to serve the needs of the development likely to take place because of such change, and the consequence of such change:

Current public rights-of-way serve this area via Water Tower Road. Access subject to Horry County encroachment review and approval.

- e) Whether the proposed change is in accord with any existing or proposed plans for providing public water supply and sanitary sewer to the area:

Property is located in the GSWSA service area. Any development will have to provide confirmation of public water and sewer availability.

As a matter of policy, no request to change the text of the ordinance or the map shall be acted upon favorably, except:

- (a) Where necessary to implement the comprehensive plan, or
- (b) To correct an original mistake or manifest error in the regulations or map, or
- (c) To recognize substantial change or changing conditions or circumstances in a particular locality, or
- (d) To recognize changes in technology, the style of living, or manner of doing business.

This petition for annexation and zoning designation is presented to the Planning Commission for a recommendation that will be forwarded to City Council at their next meeting scheduled for September 19, 2022. Should the Planning Commission desire to forward a positive recommendation to City Council, one of the reasons should be included in the report.

Staff Review:

Planning and Development, Planning Division

The Planning Division has no issue with the proposed petition for annexation and zoning but notes the inconsistencies with the comprehensive plan. Furthermore, being under 25 acres in size, there can be no development agreement, and thus, no additional negotiations concerning off-site roadway improvements, other than what would be required through the site plan review process, enhancement fees for park land, beach parking, or public safety, or further public benefits assessed to larger developments meeting the minimum acreage criteria.

Planning and Development, Zoning Division

The Zoning Administrator has no issue with the proposed petition for annexation and zoning.

Public Works

The City Engineer has no issue with the proposed petition for annexation and zoning.

Public Safety

The Fire Marshall has no issue with the proposed petition for annexation and zoning.

Planning Commission Action:

The Planning Commission may recommend approval, recommend approval with modifications and/or conditions; or recommend denial of the proposal, as submitted.

Alternative Motions

- 1) I move that the Planning Commission recommend approval of the annexation and zoning petition [Z-22-17] as submitted.
OR
- 2) I move that the Planning Commission recommend denial of the annexation and zoning petition [Z-22-17] as submitted.
OR
- 3) I move (an alternate motion).
