

Welcome to **NORTH MYRTLE Beach**

We hope you have a wonderful visit!

While you are here, please observe our beach laws, the most important of which are available here: <https://www.nmb.us/179/Beach-Ordinances>. In response to a growing number of citizen and visitor complaints, we have added an additional enforcement focus to these laws:

Fireworks are Illegal in North Myrtle Beach

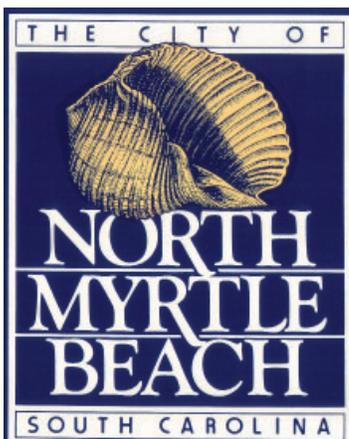

It is illegal for anyone to use, fire, shoot, discharge, burn, or in any manner ignite or activate any fireworks while in the North Myrtle Beach city limits. A first offense results in a ticket (\$310) and a second offense can result in a custodial arrest. It is also illegal for any person to sell, offer for sale, store, exchange, give away or possess for sale, commercially exchange or gift, any fireworks, except in Limited Industrial Zones. No fireworks stores are located in North Myrtle Beach.

Quiet Hours are Observed from 11:00 pm-7:00 am

It is illegal for any person to cause or permit any sustained or repetitive noise, regardless of the source, that is audible beyond the property line between the hours of 11:00 pm and 7:00 am, when, in the opinion of the responding official, such noise is excessive, disrupting the peace or disturbing the general public.

Trash Collection

Over the past several years, more and more short-term rentals, located in our residential neighborhoods, have become available to the vacationing public, largely due to the popularity of online rental platforms. This growth in short-term rentals has generated complaints about an over-abundance of trash left curbside at the rental units. The City now picks up trash from short-term rentals four days per week - Friday, Saturday, Sunday, and Monday. Please observe the trash collection days and times that your property manager provides to you and do not leave trash outside receptacles.

Parking Requirements

As North Myrtle Beach continues to grow in popularity as a vacation destination so, too, does its parking challenges. In May of 2021, the City adopted rules and requirements pertaining to transient parking and short-term rentals. When engaging in transient parking in residential neighborhoods owners and guests must comply with safety regulations determined by City and State codes, in addition to these requirements:

1. Where the City allows shoulder parking within street rights-of-way, no car may park within 30 feet from the edge of the roadway pavement on the approach leg to any intersection.
2. Where the City allows shoulder parking within street rights-of-way, no part of any vehicle may extend across or overhang the edge of the roadway pavement.
3. “Stacked” parking (vehicles parked end-to-end) is allowed, however, no part of the vehicle may overhang onto the sidewalk, right-of-way, or extend beyond the property line.
4. Under no circumstance may a property owner, managing party or any guest attempt to reserve, inhibit, prevent or discourage parking within the street right-of-way where allowed by the City.
5. No parking is permitted in landscape beds in such a manner as to obstruct a sidewalk, or in a manner which overhangs adjoining private or public property.

For your awareness, short-term rental property owners must report to their guests and the City the total number of parking spaces on their property that comply with the regulations above. The parking spaces reported to the City must be located within the owner’s private property, not shared with an adjacent property and not located within a right-of-way. The number of parking spaces reported also represents the maximum number of vehicles permitted to park on-site.

How to Register a Complaint

If you should need to file a noise, fireworks, trash, parking or other complaint during your stay with us, please call Police Dispatch at 843-280-5511. This will enable Public Safety officials to respond to your complaint in a timely manner.
